2. English Department

2.1 In order to expand students' vocabulary, the English Department has introduced a new learning platform, Solid Memory. Students are required to input 3 new words and do the exercises every day in order to learn and retain vocabulary. As it takes time to build a new habit, we cordially invite parents to supervise students' learning progress with us. Here is how it works:

Register Exercise Completion Notification and Regular Report Subscription

With the student account logged in, parents can register for **Exercise Completion Notification** and **Regular Report Subscription** under the **Account** Menu.

On the **Exercise Completion Notification** page, once the parents entered their email addresses, whenever the student completes an exercise, the system will send an email notification to the parent so that they can understand and help monitor the learning progress of the student.

Parents can see the summary of every exercise completed by the student in the notification. If the parents have not received the email notification for a few days, they should check with the student about the learning situation and help him resume the regular practice as soon as possible.
